[www.innometro.com](http://www.innometro.com)

Presented By

## **ABOUT THE Event**

**I**nnoMetro is a renowned global conference cum expo for latest innovation & technology in the Metro, Railway, RRTS, High-Speed Rail & Allied Industries. InnoMetro, is proudly organized by Symbroj Media Pvt. Ltd. and presented by Metro Rail News.

It aims to bring professionals and experts from the industry in a line to witness the latest advancements in a 2-day event. With a vision to maximize penetration into the key trends affecting the urban mobility sector, the event serves as a platform for ideation, discussion and presentation of the most innovative ideas and concepts shaping the future of urban mobility and dedicate it to our nation.

InnoMetro serves as a one-stop destination for leading brands to showcase their products, for experts to speak their minds and for delegates to experience the latest trends & technologies. With the best of technologies being implemented in our railways & metro systems, our fellow citizens will be served better with seamless commuting experience

InnoMetro, since its inception has been promoting PM Shri Narendra Modi Government's initiatives such as Make In India : For Metro & Railways, Expansion of Metro Rail Network, Introduction of New Train Technologies (RRTS, Vande Bharat), Station Redevelopment & other Public Awareness Campaigns to emphasize on use of public transport resulting in reduced traffic congestion, pollution, and protecting the environment.

The 5th Edition of InnoMetro is set to be organized on 21-22 May 2025 at Bharat Mandapam(Pragati Maidan), New Delhi. More than 150 Exhibitors will be exhibiting their innovative products in an exhibit area of 5000 sq. m. and is expected to be attended by 7000+ business visitors & 800+ conference delegates.

## **Presented by Metro Rail News**

Metro Rail News is a monthly magazine & news-portal focused on the metro, railways, HSR, RRTS & allied industries. Upon its launch in 2015, Metro Rail News has grown to be a leading journal with a monthly readership of more than 2 million, and subscriber base of around 2 Lakh+ readers. This journal has proven to be a major source of news, information & updates from the industry for the last 10 years. Right from the govt. policies, infrastructure projects & tender updates, the industry leaders rely on Metro Rail News to plan their strategies and innovations. Also, Metro Rail News has been frequently interviewing govt. officials focusing on bringing forward the government's vision, future plans, achievements and strategies that would serve the nation with a better commuting experience.

Metro Rail News has been proud media partners of major industry events and promoting them, some of them being – CII'S IREE, CII's InnoRail, PHDCCI'S Global Rail Convention, Urban Mobility India conference & expo (Organised by MoHUA), India's Urban Mobility & Infrastructure Show etc.

### Narendra Shah

Director (Planning and Corporate Affairs)

BE (EC), RGPV, Bhopal

MBA (Marketing and Strategy), FMS, Delhi University.

**12+** Years of experience in marketing strategy & operations

### Priyanka Sahu

Director (Business Development)

BJMC, Subharti University

MBA (Sales and Marketing), RKDF University

**10+** Years of experience in B2B sales marketing

## OUR AIM

In envisioning InnoMetro, our primary goal is to serve as a catalyst for the transformative evolution of railway systems, aligning with the overarching vision of the Metro & railway governing bodies. This event aspires to be more than just a gathering; it aims to be a pivotal force that propels the railway industry towards sustainable growth, innovation, and global prominence. It aims to bring all the key stakeholders on a single platform to plan a better future of Urban Mobility and dedicate it to our nation.

## Key Pillars of the Vision:

- **Innovation Hub:** Foster an environment where groundbreaking innovations in metro and railways are showcased and celebrated. Encourage collaboration between industry leaders, technology providers, and startups to drive the development and adoption of cutting-edge solutions.
- **Knowledge Nexus:** Create a dynamic knowledge-sharing platform that brings together thought leaders, policymakers, and industry experts to exchange insights, best practices, and future trends. Empower the Ministry of Railways with the latest information, fostering informed decision-making and strategic planning.
- **International Collaboration:** Facilitate a global dialogue by attracting participation from international railway authorities, organizations, and experts. Promote cross-border collaboration, sharing of expertise, and the establishment of partnerships that can elevate the standards of the national railway infrastructure.
- **Sustainability Showcase:** Emphasize a commitment to sustainable practices within the railway industry, showcasing eco-friendly technologies, energy-efficient solutions, and environmentally conscious initiatives. Align with the Ministry's vision for a greener and more sustainable transportation ecosystem.
- **Capacity Building Hub:** Serve as a hub for capacity building by offering workshops, training sessions, and educational programs for railway professionals. Contribute to the continuous skill development of the Ministry's workforce, ensuring they are equipped with the latest knowledge and expertise.
- **Policy Advancement Platform:** Provide a platform for policymakers to engage in discussions on regulatory frameworks, industry challenges, and strategic initiatives. Contribute to the development and refinement of policies that foster innovation, safety, and efficiency in railway operations.
- **Project Showcase and Collaboration Hub:** Act as a showcase for the Ministry's ongoing and future projects, attracting potential investors, collaborators, and stakeholders. Facilitate collaboration between public and private entities to accelerate project implementation and improve the overall efficiency of railway systems.
- **Public Engagement and Advocacy:** Engage the public by creating awareness about the importance of railways in sustainable transportation. Advocate for the Ministry's vision and garner public support for railway projects and initiatives.

This visionary conference and expo seek to be a driving force behind the advancement of the railway sector, aligning with the Ministry's objectives and contributing to the realization of a modern, efficient, and sustainable railway network

## FOCUS ON

### PROMOTING GREEN & SUSTAINABLE FUTURE FOR METRO & RAILWAYS

Rail Passenger Safety

Make in India:  
Make for World

Station Redevelopment

Workforce diversity &  
Technical Skill Gaps in  
Metro & Railway

Hydrogen Train

New modes of  
Transportation: Metro Neo,  
Metro Lite & Lite Rail

Automated Train  
Examination System:  
ATES

Asset Maintenance  
and Predictive Analysis

Ticketing and  
Payment Innovations

Indigenous Exports of  
Rolling Stock

Advancements in  
Artificial Intelligence (AI),  
IOT for Metro & Railway

Transport Infra Financing:  
Public Private Partnership  
(PPP)

Sustainable & Green  
Mobility

Improving Passenger  
Experience on  
'Moving Wheels'

Increased revenue  
systems and cost-cutting  
measures

Data-driven  
Mobility System

MaaS- Increasing the  
sustainability of Transport  
System

Metro railways:  
Promoting Low carbon  
Transportation in India

Train refurbishment,  
Facility Management, Train  
Maintenance

Internet of Trains

Autonomous Trains

## THE IMPACT

InnoMetro has so far been successful in creating a positive impact and hence emerged out to be the most appreciated event of the industry. The exhibits presented at the exhibitions enabled the metro & railway officials to identify the latest technologies that can be implemented for the betterment of metro & railways. Apart from this, the advocacies made at this platform were appreciated by the officials of metro corporations & Indian Railways.

Some of the major outcomes of the advocacies made at InnoMetro were implemented in the metro systems namely-

► **Lucknow Metro**

The UPMRCL implemented the “Monthly Pass” system in the Lucknow Metro for a hassle-free experience to the commuters.

► **Delhi Metro**

The DMRC implemented the service of “Advertisement Via Audio Announcements” as a part of generating non-fare revenue.

► **Rental E-bikes/e-cycles**

As a part of last mile connectivity, e-bikes/battery operated vehicles became a part of metro stations in several cities so that the commuters can connect to the metro stations from their origin point and destination point.

► **QR Based Ticketing**

For improving passenger experience, QR based ticketing has been adopted by many metro corporations. This way, commuters are experiencing a hassle-free ticket purchasing method.

► **Digi-locker (Physical Lockers)**

In 2023, digitally accessed physical lockers were installed by DMRC at over 50 stations where the commuters can safely keep their belongings.

► **Private Participation in Metro Rail Projects**

Encouraging private sectors to participate in Metro Rail Projects

► **Advocating Urban Mobility Project Across the Country**

Proposing for an increase in the no. of urban mobility projects in India to ensure better connectivity.

► **Promoting Metro Rail Among Commuter**

Encouraging fellow citizens to use metro for commuting citing the safety, security, accessibility and affordability of the metro rails.

► **Product Launch**

Some of the most innovative products were launched at this platform and the implementing bodies found it to be an impactful addition for the metro & railway operations.

Apart from these, there are several steps under discussion to be implemented in some of the metro corporations in India.

# SPEAKERS <sup>5th EDITION</sup> 2025

## CHIEF GUEST

**Shri Ashwini Vaishnaw**  
Union Minister of Railways  
Govt. of India

**Shri Manohar Lal Khattar**  
Union Minister  
Ministry of Housing and Urban Affairs

## GUEST OF HONOUR

**Shri Ravneet Singh**  
Minister of State  
Ministry of Railways (R)

**Shri Tokhan Sahu**  
Minister of State  
Ministry of Housing and Urban Affairs

**Shri Satish Kumar**  
Chairman & CEO,  
Railway Board

## PAST EDITION'S ANALYSIS

## InnoMetro 2025 - Way forward

InnoMetro 2025 will focus on addressing some of the major challenges & opportunities that could improve the railways and urban mobility sector in terms of better infrastructure, better passenger experience and world class facilities in alignment with the sustainability factor.

With all the stake holders united on a single platform, InnoMetro will prove out to be a perfect environment to discuss about the policies, strategies and explore scopes for betterment of Indian Railways and the urban mobility mediums that our government plans on establishing.

InnoMetro, since its establishment has emphasized on promoting government's initiatives such as "Make In India" and "Atmanirbhar Bharat". And, this platform has proven out to be effective in promoting the manufacturers and innovators of the Railway & metro industry.

Hence, we can expect more such innovations from our industry leaders at InnoMetro 2025.

**Thank  
You**
