STRATEGY, SUSTAINABILITY & INNOVATION FOR INCLUSIVE INFRASTRUCTURE

FROM PRESIDENTS DESK

Annual Conference Brochure – November 2025
Consulting Engineers Association of India (CEAI)

Dear Colleagues, Friends, and Industry Leaders,
It gives me immense pleasure to welcome you to the **Annual Conference of the Consulting Engineers Association of India (CEAI)**, to be held from **26th to 27th November 2025 at Hotel Shangri-la, New Delhi**. This annual gathering continues to be a cornerstone of our shared commitment to excellence, collaboration, and innovation in the engineering and infrastructure sectors.

This year's conference is set against the backdrop of unprecedented transformation in the infrastructure landscape—both in India and globally. As we push forward in our mission to build resilient, future-ready infrastructure, we must also respond decisively to the pressing challenges of our time.

Sustainability and climate change are no longer peripheral considerations—they lie at the heart of every responsible infrastructure plan. Engineering solutions must now account not only for technical efficiency and cost-effectiveness, but also for environmental impact, carbon footprint, and long-term social value. Our deliberations at this conference will explore how infrastructure can serve as a lever for **climate action**, balancing development with ecological responsibility.

The conference will also focus on the evolving landscape of **contract conditions** and **procurement procedures**, both of which are pivotal to delivering successful projects. With increasingly complex projects and multi-stakeholder involvement, the need for transparent, equitable, and efficient contractual frameworks has never been greater. We aim to deliberate on **modern best practices**, risk allocation, dispute resolution, and the importance of well-informed contract administration.

Equally important is the conversation around **infrastructure financing**. As we move toward more capital-intensive and technically demanding projects, unlocking both public and private financing remains a central challenge. The sessions will examine innovative financing models, PPP structures, and the role of multilateral institutions in supporting sustainable infrastructure growth.

One of the highlights of our annual conference will be the **CEAI Annual Awards Ceremony**, where we recognize and celebrate **outstanding individuals and firms** who have made exemplary contributions to the infrastructure sector. These awards are not merely a celebration of success—they are an inspiration for all of us to uphold the highest standards of professionalism, innovation, and integrity in our work.

I encourage each one of you to participate actively, engage with fellow professionals, share your insights, and take back valuable knowledge that will enhance your practice and strengthen our industry.

Together, let us continue to engineer a better future—one that is inclusive, sustainable, and prepared for the challenges of tomorrow.

Warm Regards,

President
Consulting Engineers Association of India (CEAI)

CONSULTING ENGINEERS ASSOCIATION OF INDIA: *Championing Engineering Excellence*

The Consulting Engineers Association of India (CEAI) is the apex professional body representing India's consulting engineering fraternity. As the official Member Association of FIDIC—the International Federation of Consulting Engineers—CEAI upholds rigorous global standards in consultancy, promotes the highest ethical practices, and facilitates seamless knowledge-sharing across borders.

With a storied legacy of advocacy, innovation, and collaboration, CEAI regularly convenes national and international seminars, capacity-building workshops, and thought-leadership forums. Our flagship FIDIC Contracting Seminar exemplifies this commitment—bringing together industry experts to delve into contract frameworks, project delivery mechanisms, and dispute-resolution strategies suited to today's dynamic infrastructure landscape.

In partnership with government bodies, industry leaders, and global stakeholders, CEAI continually elevates the role of consulting engineers as strategic drivers of India's development story.

ANNUAL CONFERENCE & AWARDS 2025

Engineering India Forward: Strategy, Sustainability & Innovation for Inclusive Infrastructure
Join 500+ senior engineers, policymakers, financiers, and academicians on 26–27 November 2025 at Hotel Shangri-La, New Delhi. Over two days of plenary sessions, hands-on workshops, and thematic panels, we'll explore actionable solutions—from climate-resilient megaprojects to smart-city digital twins—that ensure our infrastructure is equitable, efficient, and future-ready. The event culminates in the CEAI Awards Ceremony, honouring excellence in design innovation, sustainability leadership, and lifetime service to the profession.

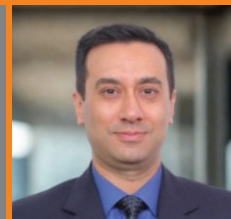

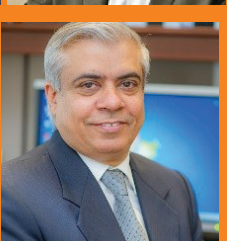

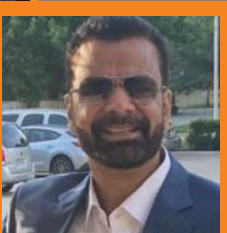

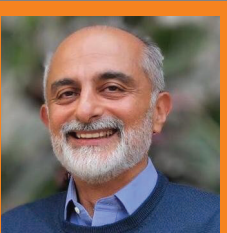

Purpose of This Gathering

- Foster cross-sector collaboration among consultants, EPC contractors, financiers, and regulators.
- Accelerate adoption of green and smart technologies through real-world case studies and scalable innovations.
- Influence policy by translating practitioner insights into clear, actionable recommendations.
- Recognize and inspire outstanding contributions in sustainability, project management, and professional integrity.
- Equip attendees with practical tools and peer networks to enhance risk management, dispute resolution, and project delivery capabilities.

By uniting India's foremost consulting engineers, CEAI Annual Conference & Awards 2025 charts a roadmap for infrastructure that is not only robust and efficient, but truly inclusive and future-ready.
